

RELEASE NOTES – 2024.10.24**Settlement Services:**

- **HESIQ-941 Lender Name added to Photoinspection PCR**
 - Property Condition Reports completed by Photoinspection will now display the lender name on the first page.
- **HESIQ-936 TCR Tax Addendum – Order of Documents**
 - The order of documents for Title Condition Report (TCR) orders including a Tax Addendum has been updated. The Tax Addendum will now appear immediately after the TCR, rather than at the end of the compiled PDF.
- **HESIQ-951 Footer Verbiage Update**
 - The hyperlink text “Visit our Support Center” in the FirstClose ONE footer has been updated to “Visit our Knowledge Center”.

Incident & Bug Fixes:

- **HESIQ-944 TCR Bring Down Update Orders Fail to Complete**
 - Resolved a bug that prevented TCR Bring Down Update orders from completing.
- **HESIQ-914 Revision Request - Revised Orders are not Mapped to the LOS**
 - Fixed an issue where revised orders were not re-sent to the LOS. Now, when a revision request is completed, the corrected documents and data deliverables are automatically mapped to the LOS.
- **HESIQ-971 TCR Orders Fail to Complete – Short Legal is NULL**
 - Fixed a bug that caused TCR orders to fail when the short legal description was NULL. If a lender requires a short legal description for TCR orders, the "Require Short Legal" customer setting should be enabled. When this setting is active, FirstClose ONE will automatically create a manual property report order instead of a TCR when the short legal description is unavailable.
